PROFESSIONAL SUMMARY

Electronics & Communication Engineering graduate (Class of 2026) with 500+ hours completed out of a structured 700-hour full-time, on-site Odoo 18/19 enterprise development program. Proven ability to architect scalable ERP modules, implement ORM-based backend business logic, and deliver multi-version production deployments. Combines hardware-level analytical thinking from ECE with strong Python and PostgreSQL expertise to build efficient, maintainable enterprise systems. Seeking a Junior Python/Odoo Developer role to drive real-world ERP solutions.

TECHNICAL SKILLS

Languages: Python, SQL, XML, C/C++

Odoo / ERP: Odoo Framework v18/v19, Custom Module Development, Odoo ORM (create, write, search, unlink), QWeb Reports, Inherited Models, Access Control Lists (ACLs), Odoo RPC, REST API Integration

Database: PostgreSQL, Relational Database Design, ORM Query Optimization, pgAdmin

Concepts: Object-Oriented Programming (OOP), Backend Business Logic, ERP Workflow Design, System Architecture, MVC Pattern

Tools: Git, GitHub, Linux, VS Code, PyCharm, Postman

Spoken: English, Hindi, Gujarati

EXPERIENCE

Python & Odoo Developer Intern | Full-Time, On-Site

Dec 2025 – Present · Gujarat

- Engineered and deployed scalable enterprise applications across Odoo 18 and Odoo 19, completing 500+ hours out of a structured 700-hour production-level, on-site development program.
- Architected a dynamic Purchase Order Approval Hierarchy system with strict multi-level access controls, overriding and inheriting core Odoo models to enforce business rules and eliminate unauthorized approvals.
- Implemented Odoo ORM methods (create, write, search, unlink) to design secure, high-performance backend business logic, ensuring data integrity across multi-version production environments.
- Developed and customized QWeb XML reports and UI views for multiple enterprise modules, improving workflow efficiency and reducing manual reporting effort.
- Collaborated with stakeholders to translate business requirements into technical Odoo module specifications, managing version compatibility across Odoo 18 and 19 simultaneously.

AI Fundamentals Workshop | CSRBOX Foundation

Jul 2 – Jul 16, 2025 · Gujarat

- Completed intensive technical program covering AI/ML fundamentals, supervised learning pipelines, and real-world AI system integration methodologies.
- Applied ECE domain knowledge to explore intersections of embedded systems and data-driven algorithms, gaining insight into AI-enabled IoT architecture.

PROJECTS

GTU PMMS CRM Module — Python · Odoo ORM · PostgreSQL · XML · QWeb

- Developed a specialized CRM module for the GTU PMMS portal, managing project tracking, milestone updates, and user workflows through complex relational queries across 5+ linked models.
- Implemented role-based Access Control Lists (ACLs) and user group permissions, securing sensitive data access with zero reported security incidents.

Library Management System — Python · Odoo 18 · PostgreSQL · XML

- Architecting a full-featured Library Management backend module in Odoo 18 with custom inventory tracking, multi-user access controls, and automated due-date notification workflows.

IoT Accident Alert System — C/C++ · MPU-6050 Accelerometer · NEO-6M GPS · SIM800L GSM

- Engineered a real-time vehicle collision detection system that autonomously identifies high-impact accidents and transmits precise GPS coordinates to emergency contacts within 5 seconds of impact detection.

Text-to-Speech Engine | Ping Pong Game — Python · gTTS · NLP · Pygame · OOP

- TTS Engine: Python CLI utility leveraging NLP/audio libraries to convert text to dynamic audio, focused on accessibility and seamless script execution.
- Ping Pong Game: Object-oriented retro arcade game built with Pygame implementing real-time collision detection and responsive keyboard controls.

EDUCATION

Bachelor of Engineering — Electronics & Communication Engineering

2022 – 2026

Government Engineering College (GEC), Bhavnagar | Gujarat Technological University (GTU), Ahmedabad | CGPA: 7.5 / 10

CERTIFICATIONS & TRAINING

- AI Fundamentals & Machine Learning Program — CSRBOX Foundation, July 2025
